# FACEBOOK COVER PHOTO TEMPLATES
QUICK GUIDE

If your layers palette is not open, go to WINDOW>LAYERS

• PLACING/CHANGING YOUR PHOTOS

Open the yellow smart object photo layer by clicking on the arrow next to the folder icon.

Double-click the icon in the desired layer to open the smart object sub-layer.

In the smart object sub-layers, (.psb) select the "YOUR PHOTO HERE" layer and paste your photo.

(Size your photo by holding the SHIFT key while dragging a corner.)

SAVE it.
then return to the full project to see the results.

Please note: If when you paste your photo it creates a new layer and leaves the "YOUR PHOTO HERE" layer empty...don't worry about it.

• CHANGING TEXT

Double-click the text icon in the desired layer.
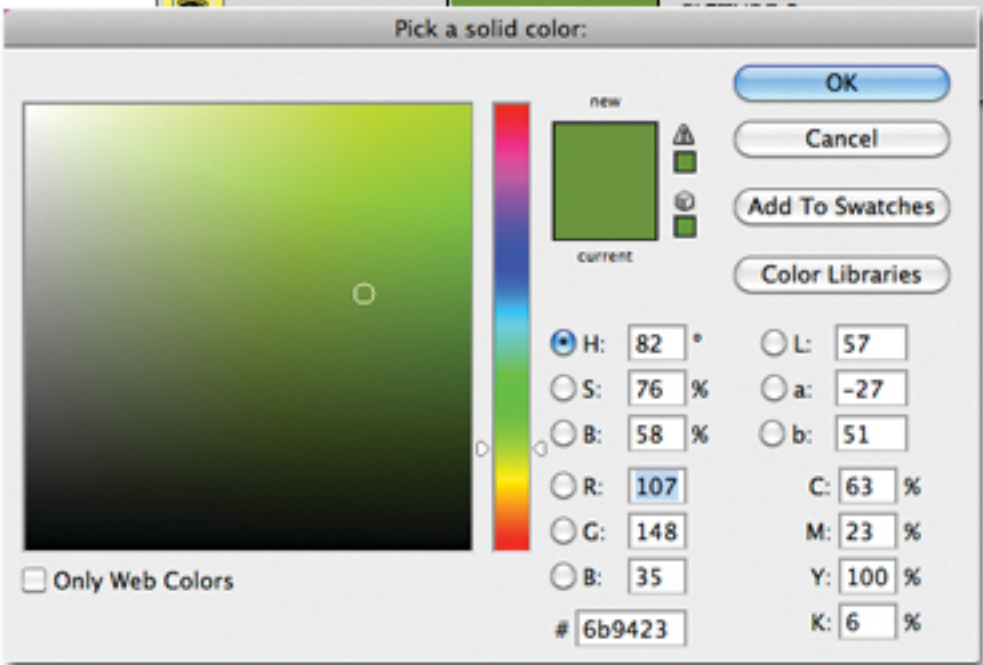

Type

• CHANGING COLORS
OVERLAYS AND BACKGROUNDS

Double-click color preview icon in the desired layer.

Select the new color in the color picker window.

Click OK

• FINISHED?

File > Save for Web & Devices.
